Your Library Transformed

We hope everyone is staying safe and healthy. Your Library is undergoing a significant transformation of your space to better serve the library community. Your Library is being transformed to provide greater ease of access, more efficient use of space, and a design reflective of the ultimate goal of the library. We want to ensure that all district residents have access to library materials and programs; to encourage literacy and the joy of reading; to promote lifelong learning; and to experience a sense of community in a welcoming environment. This transformation of your Library supports initiatives so the community can Reach, Explore, Achieve and Dream.

Reach. Explore. Achieve. Dream.

On May 4, President Norris officially kicked off the project with a groundbreaking appearance. Due to COVID-19, we regret we were unable to hold an official groundbreaking ceremony to celebrate with the community. The Library Transformation Project has two phases. The first Phase allows the Library to operate out of the front portion of the existing building, while the second Phase involves the Library operating out of the new addition and a portion of the existing renovated facility. We will be updating the community as the project progresses through our Website and social media postings. Thank you for your support as we embark on this Library journey together.
